

### Services

Webster Street Academy is based on a model of community partnership. We are not a charter school or a public school. Students remain actively enrolled in their home school but are referred to Webster Street Academy when it becomes clear they need more.

### Therapeutic Intervention

Students referred to Webster Street receive a diagnostic assessment from a therapist. Then, we figure out the areas the student is struggling in and what intervention we can put in place to assist. Students participate in daily group therapy and individual weekly therapy sessions led by licensed counselors and social workers.

### Educational Programming

Webster Street Academy's educational curriculum is aligned with the Ohio Department of Education. Students utilize a self-paced approach focused on the core areas of English, math, social studies, science and various electives.

# Webster Street Academy Intervention Services

**Too often our schools are faced with a challenging dilemma. They know a student needs therapeutic intervention but don't have the available resources to meet those intense needs.**

That's where we can step in. At Webster Street Academy, we provide a robust therapeutic component for each and every one of our students. We take the time to figure out why your student is struggling, and then implement intervention that can begin assisting them day one. We provide the support, programming and attention each of our students needs to point them on the pathway to success.

The majority of our students are 5th through 8th grade. Our classes are small, never more than 12 students, so that our kids get the attention they need. We follow Ohio Department of Education standards and offer a curriculum that is both individualized and engaging. In addition to academics, we focus on therapy. This therapeutic piece is what sets Webster Street Academy apart. When it's wrapped around an engaging educational program our students have the best chance for success. State licensed teachers and behavioral aides work alongside our therapists and case workers to ensure close, personal relationships develop with our students. In this setting kids are both academically successful and learn the coping skills they need to help get them back on track.

### Webster Street Academy

1110 Webster Street, Dayton, Ohio 45404
